

## Making Question Slides Look Better!

When your question slides are created they will look terrible - fortunately, you can alter the way they look using your PowerPoint skills.

It's a simple process to alter the font, the colour, any styles or the background of your slide.

You can do this with any element on the screen.

Don't worry about the fact that the confirmation dialog boxes seem to overlap - obviously only one is shown at a time

You have complete control over the presentation of these questions.
